Nam Nam

Cynometra cauliflora

نام نام

Trees that are able to grow up to about 3-15 meters, with thick and heavily branched stems, and cauliflorous with small pinkish-white flowers and brownish-green fruit.

Bilimbi

Averrhoa bilimbi

بیلیمبی

Tropical trees that can grow up to 15 meters, with purple-ish red flowers that occur on the trunk or branches in pendulous clusters, bearing yellowish-green, sour tasting fruits at maturity.

Indian Coffee Plum

Flacourtia jangomas

فلکورتیا جانگوماس

Trees typically reaching heights of 6-14 meters, with younger specimens possessing woody thorns on both trunk and branches, gradually becoming thornless with age.

Star Gooseberry

Phyllanthus acidus

فیلانٹس ایدس

Glaborous trees that grow up to 10 meters tall with phyllanthoid branching and rough, grey, bark. The branchlets are 25-52cm long with 25-40 leaves on average.

5 Million Trees Project

حکومت سندھ

Starfruit Tree

Averrhoa acutangula

مِرْفُورِ شَادِ مَرَسَرِ

Trees that grow upto 6 meters high, with edible fruits used for medicinal purposes and to make pickles, jelly etc.

Key Lime

Citrus aurantifolia

مِرْفُورِ شُورِجِ

Shrubby trees with many thorns that can grow up to 5 meters. Dwarf varieties of these trees can be grown indoors.

Mango

Magnifera indica

مَرَسَرِ

Large, evergreen trees that grow to about 20 meters with a dark green umbrella shaped crown.

Bread Fruit

Artocarpus altilis

مَرَسَرِ شَادِ

Large, evergreen trees that reach heights of 15-20 meters with smooth, light-colored bark.

5 Million Trees Project

قَسْمِ مَرَسَرِ شَادِ مَرَسَرِ شَادِ مَرَسَرِ شَادِ مَرَسَرِ شَادِ

Olive Tree

Olea europaea

جى اريڤيس

Broadleaved, evergreen fruit trees or shrubs characterized by gnarled trunks and silvery coloured leaves that form a rounded crown.

Jack Fruit

Artocarpus intergrifolia

سورنجا

Tall, evergreen trees that have alternating glossy and leathery leaves that grow up to 22.5 centimeters (9 in) in length.

Wood Apple

Limonia acidissima

جى رڤوڤي

Deciduous trees with a few upward branches that bend outwards near the top, dividing into drooping branchlets. They have ridged, fissured and scaly bark, and grow fruit that have a hard rind and are greenish-brown in color.

Maldives Screw Pine

Pendus fascicularis

مرفور سارنجا

Tall shrubs that are branched and woody.

5 مليون شجره

ދިވެހިސަރުކާރުގެ ގެޒެޓް
ދިވެހިސަރުކާރުގެ ގެޒެޓް

Sapodilla Plum

Manilkara zapota

سبؤ قمر

Large forest trees exceeding 30 meters in height, with diameters up to 1.5 meters. Under cultivation, they typically reach 9-15 meters in height, and diameters not exceeding 50 centimeters, depending on the location.

Indian Gamboges Tree

Garcinia morella

آس سر

Trees that grow to about 5-20 meters tall.

Rose Apple

Syzygium malaccense

آس سر

Small to medium-sized trees with dark green leaves and creamy-white flowers with separating petals and long filaments. They bear oval-spherical fruits up to 4.5cm in diameter and yellow when ripe.

Bullock's Heart

Annona reticulata

آس سر آس سر

Low-erect trees with a round or spreading crown and trunks that are 25-35cm thick. They have heights of 5-10 meters and ill-smelling deciduous leaves that are 10-20cm long and 2-5cm wide with conspicuous veins.

5 Million Trees Project

وزارت زراعت و امور روستاها

Custard Apple

Annona squamosa

مَرَقَرِ مَرَقَرِ

Small trees with fragrant pendulous flowers and sweet- tasting fruit that are round-ish with a knobby surface.

Cordia Plum

Cordia dichotoma

مَرَقَرِ مَرَقَرِ

Small to medium sized-deciduous trees with short, crooked trunks and spreading crowns. Leaves are simple, slightly dentate and range from elliptical lanceolate to broad ovate with rounded to cordate bases.

White Wax Apple

Syzygium samarangense

مَرَقَرِ مَرَقَرِ

Medium-sized trees that possess wide glossy leaves and hard, waxy-looking fruits.

Common Guava

Guajava pumila

مَرَقَرِ مَرَقَرِ

Medium-sized trees that possess wide glossy leaves and hard, waxy-looking fruits.

5 Million Trees Project

وزارة الزراعة

June Plum

Spondias dulcis

اسرند

Deciduous trees that are 20-60 centimeters (8-24 inches) in length, made up of glossy, elliptic obocato-oblong leaflets and small, white flowers in terminal panicles.

Avocado

Persea americana

اسرند

Tall or spreading trees that have elliptic to egg-shaped leaves that are 10-30 centimeters (4-12 inches) in length and small greenish flowers that lack true petals.

Common Fig

Ficus carica

اسرند

Woody, deciduous, multi-stemmed trees or shrubs that grow fast and are 10 to 30 feet tall at maturity and wide with a rounded habit.

Pomegranate

Punica spinosa

اسرند

Deciduous shrubs or small trees that grows between 5 to 10 meters tall with spiny branches, bright red flowers and red-purple colored fruit.

5 Million Trees Project

وزارة الزراعة

Java Plum

Eugenia jambolana

کرسر

Trees that can reach heights of 30 meters, used for avenue planting and medicinal purposes. (Added des) They grow greenish white flowers and ellipsoid shaped fruits.

Maldivian Coconut Palm

Cocos Nucifera

کرسر

Fast-growing, solitary and slender palms. (added picture)

Nulu Ruh

Cocos Nucifera

کرسر

Tall palms that bear green-coloured coconuts.

Dhondhanbu Ruh

Cocos Nucifera

کرسر

Long palms that bear orange-coloured coconuts.

5 Million Trees Project

وزارت زراعت

Malaysian Dwarf

Cocos Nucifera

کرسر دمر

Palms that possess lemon coloured fruits (coconuts) with orange leaf petioles. Smaller and dwarf varieties of these palms usually don't exceed 10 meters in height.

Areca Palm

Areca catechu

کرسر دمر

Palm trees that are medium-sized and grow straight to 20 meters tall, with a trunk of 10-15 centimeters in diameter.

Ornamental Palms

Pritchardia pacifica

کرسر دمر

Palms that grow up to 15 meters tall with fan-shaped leaves.

Fishtail Palm

Caryota mitis

کرسر دمر

Palms with clustered stems up to 10 meters (33 feet) tall and 15 centimeters (6 inches) in diameter.

5 Million Trees Project

وزارت زراعت و امور روستاها

Red Palm

Cyrtostachys renda

مرمری

Slender, multi-stemmed trees that grow slowly and cluster. They grow to upto 16 meters tall and have bright red coloured crownshafts and leaf sheaths.

Tree Heliotrope

Messerschmidia argentea

جوسر

Shrubs or small trees that are characterised by greyish bark, ovate leaves and white flowers in white panicle or scorpioid cymes.

Alexandrian Laurel

Calophyllum bingator

جوسر

Trees that grow up to 20 meters tall with glossy, oval shaped leaves, sweet-scented white flowers and round, green fruits.

Nit Pitcha

Guettarda speciosa

جوسر

Tall, 22-meter trees with rounded and sprawling crowns containing white and clustered flowers.

5 مليون شجرة
5 Million Trees Project

وزارة الزراعة
Ministry of Agriculture

Weeping Nyctanthes

Nyctanthes arbortritis

موسم برهمن

Large shrubs or small trees that grow to about 10 meters, with gray flaky bark and green leaves that are hairy, rough, and simple. The white, fragrant flowers have a 5-8 lobed corolla with a red-orange center and are found in clusters of 2 to 7.

Fish Poison Tree

Barringtonia speciosa

لکھنؤ

Shady trees that grow up to 25 meters high, with dense canopy and buttressed trunks.

Indian Coral Tree

Chiocalyx candolleanus

موسم برهمن

27-meter tall trees with armed tree branches and indehiscent, dark fruits that are turgid and somewhat woody.

Rain Tree

Albizia saman

موسم برهمن

Trees that grow up to 30 meters tall, with a symmetrical, umbrella shaped crown and wide-spread branching that occurs from a low height.

5 Million Trees Project

حکومت پنجاب

Golden Shower

Cassia fistula

رِسْرِدُوْمُوْسُوْ

Medium-sized deciduous trees that grow up to 15 meters high, and possess an irregular crown with bright yellow flowers and long cylindrical pods.

Norfolk Island Pine Tree

Araucaria heterophylla

مَرْوَسٌ

Large, evergreen trees that have a single, upright trunk and tiered branching habits that cause them to have a narrow pyramidal or columnar shape. They can grow up to 80 feet.

Indian Coral Tree

Saraca asoca

رسول

Small trees that are up to 5 meters tall with often tubercled trunks and dark, fissured bark.

Tamarind

Tamarindus indica

٢٠٢٠

Slow-growing trees that reach up to 15 meters high and have a dome/umbrella-shaped crown of dense compound leaves and a short, stocky trunk with greyish-brown, fissured bark

5 Million Trees Project

١٠٢٤

Indian Rubber Tree

Ficus elastica

مَرَكْسِي

Large, evergreen trees with a dense crown and spreading branches that start from massive trunks with greyish or reddish-brown bark.

Weeping Fig

Ficus Benjamina

مَرَكْسِي شَاوِي

Evergreen trees with slender aerial roots, smooth grey bark, and latex milk.

Sacred Fig

Ficus religiosa

شَاوِي

Large, broadleaved, evergreen trees with wide-spread branching that grows to 60-100 inches tall, and trunks that may grow to about 9 inches in diameter.

Bat Tree

Ficus amplissima

شَاوِي

Large trees that grow up to 25 meters high, with greenish-grey bark, yellow blaze and milky exudation.

Nut Meg

Myristica fragrans

میریکا

Small, evergreen trees that are aromatic.

Indian-Laurel

Terminalia arjuna

آر جونا

Large, fluted tree that can grow up to 30 meters tall and 2- 2.5 meters dbh. They have buttressed trunks and a shallow root system that grows radially, as well as a spreaded crown that produced drooping branches.

Black- or Chebulic Myrobalan

Terminalia chebula

چمبر

Medium to large deciduous trees that can grow up to 30 meters (98 feet) tall and have trunks up to 70 centimeters (3 feet, 3 inches) in diameter.

Lettuce tree

Pisonia grandis

پیسونیا

Medium to large, soft-wooden trees that grow up to 30 meters tall with a trunk up to 70 centimeters in diameter. They have smooth twigs, white-gray bark and large leaf scars.

5 Million Trees Project

وزارة البيئة والحفظ والغابات

Latherleaf

Colubrina asiatica

لثري

Glabrous shrubs with slender branches that extend up to 5 meters (16 feet) long and stems that grow up to 15 meters (49 feet) long in older plants.

Hawaiian White Plumeria

Plumeria alba

كاسيس

Deciduous trees that can grow up to 10 meters high.

Neem

Azadirachta indica

نيم

Fast-growing trees that can reach up to height of 15-20 meters, with some occasionally reaching 35-40 meters.

Hummingbird Tree

Sesbania grandiflora

كاسيس

Small, fast-growing trees that can grow up to 10 meters in height and are sparsely branched. Their fruits are used as vegetables and they are a good source of fodder.

5 مليون شجرة
5 Million Trees Project

وزارة الزراعة
Ministry of Agriculture

Drumstick Tree

Moringa oleifera

درمستری

Fast-growing, deciduous trees that can reach heights of 10-12 meters (33-39 feet), and have trunks that bear diameters of 46 centimeters (18 inches).

Malabar Nut Tree

Adhatoda vasica

رَنُو رَنُو

8 to 10 feet tall shrubs, with opposite and simple lanceolate leaves and whitish, terminal flowers on short spikes.

Deodar

Polyalthia longifolia

درمستری

Small- medium sized trees that grow up to 15 meters. Younger plants have straight trunks and weeping, pendulous branches that are longest at the base and shorter at the end of the trunk.

Chaste Tree

Vitex negundo

درمستری

Shrub or small trees that are 2-5 meters tall with slightly rough, pale reddish-brown bark that peels in peppery flakes.

5 Million Trees Project

وزارت محیط زیست، شهرسازی و تغییرات اقلیم

Billygoats Weed

Ageratum conyzoides

بیلیگواتس ویڈ

Annual herbs that can reach a height of 1 meter. They have shallow, fibrous roots and are soft, with a slight aroma.

Khus-Khus Grass

Vetiver zizanioides

کھوس-کھوس گراس

Large, tufted bunchgrass that can reach up to 1.5 meters (5 feet) in height. They grow brown-purple flowers in long spikes and have thin leaves and rigid, erect stems.

Periwinkle

Catharanthus roseus

پیریونگل

Semi-woody shrubs classified as short-lived perennials, growing up to 0.5-0.8 meters tall, and have glossy dark oval leaves and red to light pink tubular flowers with five flattened petal-like lobes.

Bougainvillea

Bougainvillea spectabilis

بوغائیویلیا (بوغائیویلیا)

Woody vines or shrubs, ranging from 15 to 40 feet tall, that have heart-shaped leaves and thorny stems.

5 Million Trees Project

حکومت پنجاب

Willowleaf Angelon

Angelonia salicariifolia

دسہندہ کسکریا

Compact perennial with dense, showy spikes of flowers. They grow upright, reaching heights of 25-30 cm.

Yellow Bells

Tecoma stans

چلچلی

Small shrubs or trees that are usually 5-7.6 meters in height. They have pale brown-grey bark that roughens with age and compound leaves.

Climbing Ylang-Ylang

Artabotrys uncinatus

کھجور کھجور

Massive climbing shrubs or liana with thick, spiny trunks and smooth, grey bark.

Double Chandni

Ervatamia coronaria

چمک چمک

Plants are evergreen shrubs and small trees, growing to about 1-15 meters tall. They have opposite leaves that are 3-25 centimeters long and

5 Million Trees Project

حکومت پنجاب

Tube Rose Single Petal

Polianthes tuberosa

دُرُوسَرِجِ نَر

White and yellow spring-flowering perennial bulbous herbs that can grow up to 1 feet and 5 inches.

Golden Dewdrop

Duranta plumieri

دُرُوسَرِجِ نَر

Large, 10 feet tall, evergreen shrubs with multiple stems and hanging branches.

Queen of the Night

Cestrum nocturnum

دُرُوسَرِجِ نَر

Woody shrubs that grow to 4 meters (15 feet) and have slender branches.

White Jasmine

Jasminum grandiflorum

دُرُوسَرِجِ نَر

Evergreen, scandent shrubs with long, stiff branches and foliage consisting of compound leaves that are glossy green in colour.

5 Million Trees Project

دُرُوسَرِجِ نَر

Arabian Jasmine

Jasminum sambac

جاسمین عربی

Shrubs or vines up to 1.5 meters long with light green leaves and double-petaled flowers.

Coral Vine

Antigonon leptopus

جاسمین کمرنگ

Fast-growing, climbing vines that hold on via tendrils, and are able to reach over 7 meters in length. They feature cordate and triangular leaves that grow up to 25 to 75 millimeters long.

Crepe Myrtle

Lagerstroemia Indica

جاسمین کمرنگ

Upright, wide-spreading, multi-stemmed, deciduous shrubs or small trees that typically grow to about 15-25 feet tall.

Orange Jasmine

Murraya paniculata

جاسمین نارنجی

Trees that typically grow to a height of 7 meters (23 feet), but often flowers and forms fruit as a shrub, with smooth pale to whitish bark.

5 Million Trees Project

وزارت محیط زیست، آب و آب و هوا

Oleander

Nerium oleander

نارنگ

Flowering trees which grow to a height of 25 feet, with green leaves and thick sap.

Prince of Orange

Ixora chinensis

نارنگ

Multi-stemmed, erect. evergreen shrubs that grow up to 2 meters tall.

Jasmine

Jasminum laurifolium

نارنگ

Evergreen shrubs with a scandent growth form and the ability to grow up to 6 meters tall.

Star Jasmine

Jasminum multiflorum

نارنگ

Evergreen, branching vines that sometimes can be grown as shrubs, and are able to grow up to 1- 3 meters tall.

5 Million Trees Project

وزارة البيئة والمياه والغابات

Garden Croton

Codiaeum variegatum

میرزا نمر (شیر)

Monoecious, tropical shrubs growing upto 3 meters (9.8 feet) tall, with thick and somewhat "leathery" and shiny, alternately arranged leaves.

Tropical Hibiscus

Hibiscus rosa

سورگ (شیر)

Glabrate, 1-5 meter tall shrubs.

Common Bamboo

Bambusa vulgaris

میرزا نمر (شیر)

Large bamboos forming erect clumps that grow up to 20 meters tall. The leaves are lance-shaped, and are bright yellow when juvenile and turn green with maturity.

Propeller Tree

Gyrocarpus americanus

میرزا نمر (شیر)

Deciduous trees with smooth gray bark and usually 3-lobed leaves that are dark green on top and gray below. They produce yellowish-green flowers and woody nuts with two long, paddle-like wings as fruit, and grow up to about 12 meters tall.

5 Million Trees Project

وزارت محیط زیست، حفاظت و جنگل

Ming Aralia

Polyscias fruticosa

آسرسو داسو

Perennial plants that grow slowly and have dark green, glossy leaves tha are trippinate.

Coral Tree

Erythrina indica

آسرسو داسو

Deciduous trees that can reach a height of 18-25 meters and are shallow rooted, with grey-green bark, prickly branches, compound leaves and bright red flowers.

Sappan Wood

Caesalpinia Sappan

آسرسو داسو (آسرسو داسو)

Small to medium sized trees that are 6-9 meters in height and have a trunk diameter of 15-25 centimeters. They have prickly branches and double-compounded leaves.

Dinner Plate Aralia

Polyscias balfouriana

آسرسو داسو

Bushy shrubs with alternating leaves and white, 5-petaled flowers.

5 Million Trees Project

وزارت زراعت و امور روستاها

Blue Gum

Eucalyptus globulus

عُذْرَة

Trees, or sometimes stunted shrubs, that typically grow to a height of 45 meters, with smooth, white to cream-coloured bark, and glossy, dark green leaves at maturity.

Odallum Tree

Cerbera manghas

عُذْرَة

Small evergreen trees with round to oval crowns that exude white, milky latex. They have gray bark and stalked, spirally arranged leaves. The flowers have a red to purple center at maturity, and the fruits are large, smooth, and red when ripe.

Sacred Fig

Ficus religiosa

عُذْرَة

These trees can reach up to 25 meters tall, with gray, smooth or finely fissured bark, and produces white sap. The leaves are spirally arranged with a leather-like texture, and the trees bear figs that turn purple to black at maturity.

Belerica Myrobalan

Terminalia belerica

عُذْرَة

Large trees that grow up to 25-30 meters tall. The leaves are simple, alternate, elliptic, and leathery. The flowers are small and greenish-yellow, and the fruit is gray, containing one seed.

5 Million Trees Project

وزارة الزراعة

Bamboo

Dendrocalamus strictus

مروءه

Medium-sized trees with culms reaching about 8-20 meters tall, pale blue when young and dull green or yellow at maturity. The culms are slightly zig-zag from the middle to the top.

Lemon

Citrus limon

ليمون

Trees with a gradual color change from purple to green with maturity and ovate to lanceolate leaves. The flowers are purplish-white, and they bear yellow, acidic fruits that may be round or oval-shaped.

White Fig

Ficus infectoria

فicus

Medium-sized trees with a wide-spreading crown, thin-leathery drop drop-shaped leaves and many aerial roots.

Yellow Plum

Ximenia americana

آبرو

Shrubs or trees reaching up to 10 meters tall, with thorny branches and spirally arranged, short-stalked leaves. They produce fragrant flowers that transition from white to greenish and bear round fruits that turn from yellow to orange.

5 مليون شجرة
5 Million Trees Project

Ministry of Agriculture

Purple Wreath

Petrea volubilis

أشجار ورد

Growing up to 6 meters tall, these woody climbers form a shrub when unsupported, with evergreen, simple leaves and star-shaped flowers ranging from pale blue to violet.

Sesbania

Sesbania grandiflora

شجر ورد (شجر، ورد)

Small, erect, fast-growing trees that can reach 10 meters in height, with sparse branching, light gray bark and soft, white wood. They have compound leaves, large flowers 7-9 centimeters long, and thin pods as fruit.

Cinnamon

Ficus religiosa

شجر ورد

Trees that grow to 10-15 meters tall, with grayish bark and hard, elongated leaves that are 10-15 cm long and reddish when young.

Teak Tree

Tectona grandis

شجر ورد

Large deciduous trees with a spreading white crown, reaching heights of up to 40 meters. They feature large foliage, with each leaf growing up to 75 centimeters long and 4 centimeters wide. The flowers are small, pinkish-white, with partially fused petals.

5 مليون شجر
5 Million Trees Project

وزارة الزراعة
Ministry of Agriculture

Margosa Tree

Azadirachta indica

سدر

Trees 15-30 meters tall, with a large, round crown, dark gray, deeply fissured bark, and colorless, sticky sap. The compound leaves are red when young, turning green as they mature, and cluster at the ends of the branches.

Orange Jasmine

Murraya paniculata

نارجیس

Medium-sized shrubs, usually around 8 meters tall, with fine-textured, evergreen, alternate, compound leaves. They bear white flowers in clusters on the stems and branches and red, oval fruit about 1-3 centimeters long.

Sea Trumpet

Cordia subcordata

سدر

Small, bushy trees up to 20 meters tall with crooked trunks and pale gray, furrowed bark. The light green leaves are alternately arranged, 8-20 centimeters long. They produce orange, funnel-shaped flowers and brown, woody nuts.

Coral Hibiscus

Hibiscus schizopetalus

سدر

Narrow, erect woody shrubs that can grow up to 1-2 meters tall, with dark green leaves, pink to red flowers, and cylindrical capsule fruits.

5 Million Trees Project

وزارت زراعت و امور دام

Clove

Syzygium apromaticum

سایه سبز

Evergreen trees that grow up to 8-12 meters tall, with large leaves and crimson flowers in terminal clusters. The leaves are simple, opposite, and shiny-leathery with a black-spotted underside, light green at maturity, and bright pink when juvenile. The dark purple fruit contains a single seed.

Sea Putat

Barringtonia asiatica

سایه سبز

Small to medium-sized trees reaching 7-25 meters, with grayish-pink bark and large, dark green leaves. They produce strongly fragrant flowers with numerous pinkish-white stamens, and fruits with a broad square base and tough fibrous husk.

Indian Medlar

Mimusops elengi

سایه سبز

Grow up to 15 meters tall, with thick, long leaves about 5-12 centimeters long. They produce small cream-white, star-shaped flowers and oval fruits 2-3 centimeters long, turning from green to orange-red when ripe.

5 Million Trees Project

وزارت کشاورزی و منابع طبیعی
